VOID FILL PACKAGING

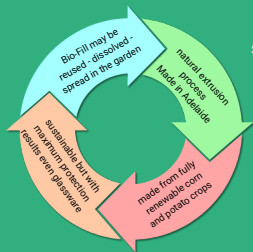

**PROPAK
INDUSTRIES**

Innovative Packaging Solutions

*The world of tomorrow depends on
what we throw away today. Bio-FillTM
will never go to landfill!*

Bio-Fill is 100% biodegradable as well as reusable. Just a little water, and watch them dissolve right before your eyes!

Benefits

safe and easy to use and reuse saving \$\$\$
lightweight, fluffy but durable and protective
withstands chilling
insect and rodent resistant
dust - odor - static free
available in 400 ltr biodegradable bags
suitable for composting

How to dispose of Bio-fill?

Being made from natural Corn and Potato Starch, when immersed in water, the pellets dissolve naturally with no harmful residue
Bio-Fill[®] can be disposed of in curbside rubbish as it completely breaks down
Or use in Compost Bins and Council Green bins,
Propak Industries' Bio-Fill will never wind up polluting oceans, rivers, or waterways
